

X-RAY | EMERGENCY INTERPRETATION ESSENTIALS

A Systematic Review of the Fundamental Principles in Emergency X-Ray Interpretation

COURSE OVERVIEW

The goal of the course is to provide practitioners with the knowledge and confidence to recognise radiographic patterns of trauma and injury commonly encountered for each module of anatomy. Interactive multimedia live case reviews are undertaken with lectures.

- ▶ Includes pre-course online modules, pre + post course competency test
- ▶ Suitable for General Practitioners, Critical Care Physicians, Emergency Physicians, Registrars, House Officers, Interns, Radiographers, Physiotherapists, Chiropractors, Osteopaths and Nurse Practitioners working in urgent care.
